CANDIDATES SHOULD BE AWARE OF THE FOLLOWING 考生须知

You must achieve a pass on every section to complete the test. 操作考试每一个部分都设有最低分数要求，考生需达到最低分数才能通过考试。

Each section is timed. If you go over time on any section you will incur an automatic fail on that section. 每个考试部分都会计时，若考生超时则该部分自动判定为不合格。

Each section includes specific instructions which you should read before starting the test. 每个部分开头处都有针对该部分考试说明，请考前仔细阅读。

At any point in the test, if you want to know how much time is left, please ask your examiner. Otherwise you are responsible for your own timing. 考试中，若考生想知道该部分考试剩余时间可随时向考官询问。否则考生对该部分考试超时与否将自行负责。

During the test, your examiner will not be able to give you any assistance. However, If you believe the equipment is not functioning correctly, or there is another technical problem, please inform the examiner, who may stop the time, or re-start the test as appropriate. 考试过程中，考官不能为考生提供与考试内容相关的协助。若考生认为机器或其他等非人为因素部分出现故障或问题，请向考官提出，考官须暂停考试进行调查，如有需要可重新开始考试。

You have a familiarisation/setup period between each section. At the end of each period your next section time will start automatically. If you would like to start the next section without using the full setup time, please inform your examiner. 每一个考试部分结束和开始之间都有熟悉/准备工作台的时间，该部分将进行计时，结束之后，下一个部分考试将自动开始。若考生决定提前结束该部分，请主动告知考官。

1.1 GRINDER CALIBRATION STAGES (12 MINUTES) 研磨机校对 (12分钟)

You will calibrate a grinder to the recipe listed on the table below and produce a double espresso to that recipe. 请考生将研磨机研磨度调整到制作一个双份浓缩的萃取时间在以下所列表格要求范围之内。

If you go over time, you will incur an automatic fail on this section and will not proceed to the Espresso Assessment. 若超时，则该部分考试将自动判定为不合格，并终止全部考试，即，以下关于浓缩部分的考试将不再继续。

You are required to work in a clean manner. Your assessor may request that you clean up your workspace. This will be done within your assessment time. 考生在制作过程中须持续保持工作台干净整洁，否则考官可提出相应要求，对该要求考生仍须在考试时间内完成。

1.2 ESPRESSO ASSESSMENT (3 MINUTES) 浓缩评估 (3分钟)

You will assess your espresso for the sensory parameters listed on the table below. If you go over time, you will incur an automatic fail on this section. 考生需按以下表格所列感官参数对呈递的浓缩进行描述。若超时则该部分考试自动判定为不合格。

EXTRACTION ASSESSMENT 萃取评估

You will Indicate your assessment of extraction level on the scale supplied on the form below. 请考生对呈递的浓缩进行萃取范围评估，并从以下图表中圈出相应萃取评估范围。

You will write an appropriate and applicable single descriptor for each category in the form below. The Aroma must be a specific Aroma description, Flavor a specific Flavor description and Body a specific Body description. 考生需对浓缩从香气、风味、体脂感三个方面一一进行合理并实用的描述。香气、风味和体脂感须分别是描述香气、风味和体脂感的词汇。

You are encouraged to use the SCA Flavour Wheel for guidance. Do not leave any descriptor blank. 鼓励考生使用精品咖啡协会风味轮作为参考，请不要将考卷需填写处留白。

Tell your examiner when you are ready to submit your descriptions. 填写完成请告知并提交给考官。

EXTRACTION VERIFICATION 萃取率确认

Your examiner will check that you are within 1 point on the scale from your examiner's independent assessment. If not, they will explain the reason(s) and this will not be timed.

考官会审核考生答案是否与考官答案差值在1分之内，若否，考官会向考生解释原因，解释部分不计时。

The examiner may choose to physically measure the extraction percentage to support their assessment. 若需要，考官可选择使用相关测量工具测出萃取率百分比以支持其结果。

For this section, balanced extraction is deemed to be between 18-22%. This measurement will not be timed. 该部分，平衡萃取萃取率需在18-22%之间。测量部分不计时。

AROMA, FLAVOR, BODY VERIFICATION 香气、风味、体脂感审核

Your examiner will check that your descriptors are reasonably accurate. If not, they will explain the reason(s) and this will not be timed. 考官将审核描述是否一定程度上准确合理，
